

Noise & Hearing Protection

- Wear hearing protection and request a noise evaluation if you need to shout to be heard by someone three feet away, for extended periods.
- Contact your EH&S Industrial Hygienist to evaluate or measure noise levels.
- Obey any posted noise hazard signs.
- Obtain ear plugs or muffs from Ebuy vendors.
- Exposure above occupational limits requires inclusion in the Hearing Conservation Program.
- Contact Health Services at B26, x6266, if you are concerned about hearing loss.

For questions contact Rob Connelly, EH&S Division (x4028).
